PROFESSIONAL SUMMARY

AI/ML Engineer and Data Science enthusiast with hands-on experience building end-to-end machine learning and computer vision applications using Python, TensorFlow, and PyTorch. Skilled in data cleaning, EDA, and deploying AI-powered tools with Streamlit and Flask. Completed an industry-backed AI internship in collaboration with Microsoft and AICTE, solved 280+ DSA problems, and delivered two production-style AI applications with real-time inference, multi-modal recognition, and cloud database integration.

TECHNICAL SKILLS

Programming Languages: Python, Java

AI/ML: Machine Learning, Deep Learning, Natural Language Processing (NLP), Computer Vision, Neural Networks, Model Deployment

Data Science: Data Cleaning, Data Visualization, Exploratory Data Analysis (EDA), Statistical Analysis, Feature Engineering

Frameworks & Libraries: TensorFlow, PyTorch, Scikit-learn, Flask, Streamlit, Pandas, NumPy, Matplotlib, Seaborn, OpenCV

Databases: MongoDB, MySQL

Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), REST API Design, Model Training & Evaluation

Tools & Platforms: Git, GitHub, Jupyter Notebook, VS Code, Supabase, Cloud Deployment

EXPERIENCE

AI/ML Virtual Internship – Foundations of Artificial Intelligence

Microsoft Initiative, Implemented by Edunet Foundation, in collaboration with AICTE | Apr 10 – May 10, 2025

- Completed a 4-week virtual internship on Foundations of AI, gaining hands-on exposure to Artificial Intelligence (AI), Machine Learning (ML) concepts, and real-world application development.
- Collaborated with mentors and peers in a structured, industry-aligned program backed by Microsoft and AICTE, strengthening foundational AI/ML problem-solving skills.

PROJECTS

SnapClass AI – Intelligent Attendance Management System

[Live Demo ↗](#)

AI/ML, Streamlit, Computer Vision, Voice AI | dlib, face_recognition, librosa, resemblyzer, Supabase

- Developed an AI-powered attendance management system using Streamlit that automates classroom attendance through face recognition, voice AI, and QR code verification, eliminating proxy attendance.
- Implemented multi-modal identity verification by combining dlib and face_recognition for facial recognition with librosa and resemblyzer for voice-based authentication.
- Integrated a Supabase cloud database for real-time attendance tracking, record management, and data persistence.
- Built a secure authentication layer using bcrypt password hashing and dynamic QR code generation with segno.
- Reduced manual attendance processing time by 80–90% through full automation of the attendance workflow.

AI Realtime Gym Coach

[Live Demo ↗](#)

Python, MediaPipe, OpenCV, Streamlit, Groq LLM, gTTS

- Built an end-to-end AI fitness coaching assistant that analyzes user movements in real time through webcam-based pose estimation, combining computer vision with large language models.
- Applied MediaPipe pose estimation to track 33 body landmarks in real time for exercise form analysis.
- Integrated the Groq LLM API to generate personalized workout suggestions, form corrections, and motivational feedback.
- Implemented hands-free, voice-assisted coaching using gTTS text-to-speech for real-time audio guidance during workouts.
- Deployed the application online, enabling real-time AI coaching through a browser-based interface.

EDUCATION

Bachelor of Technology (B.Tech), Information Technology — Expected 2027

IEC College of Engineering & Technology (AKTU) — Greater Noida, Uttar Pradesh | SGPA: 7.96/10 (Up to 6th Semester)

Higher Secondary Education (Class XII) — 2022–2023

Greno Public School, Gautam Buddha Nagar — Greater Noida, Uttar Pradesh | Percentage: 81.8%

ACHIEVEMENTS & RECOGNITION

- Awarded a Merit-Based Scholarship of ₹20,000 for outstanding academic performance (2023–2024).
- Designed, developed, and deployed 2 production-grade AI/ML projects (SnapClass AI, AI Realtime Gym Coach).
- Solved 300+ Data Structures & Algorithms (DSA) problems on [LeetCode](#) and GeeksforGeeks, demonstrating strong algorithmic problem-solving ability.
